

Title : Advanced Placement Calculus
Type : Essential

	September				October				November				December				January				February				March				April				May				June							
	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42		
September/Week 1 - September/Week 3																																												
Prerequisites for Calculus																																												
September/Week 4 - October/Week 6																																												
Limits and Continuity																																												
October/Week 7 - November/Week 11																																												
Derivatives																																												
November/Week 12 - December/Week 15																																												
Applications of Derivatives																																												
December/Week 16 - January/Week 18																																												
Definite Integral																																												
January/Week 19 - February/Week 23																																												
Differential Equations and Mathematical Modeling																																												
February/Week 24 - March/Week 27																																												
Applications of Definite Integrals																																												
March/Week 28 - April/Week 32																																												
AP practice and Student Learning Curve
