

Title : Environmental Physics and Chemistry (Integrated Science)

Type : Essential

	September				October				November				December				January				February				March				April				May				June					
	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42
September/Week 1 - September/Week 2	[Shaded]																																									
Scientific Inquiry:																																										
September/Week 3 - October/Week 5	[Shaded]																																									
Atomic Structure																																										
October/Week 6 - October/Week 8	[Shaded]																																									
Carbon Chemistry:																																										
November/Week 9 - November/Week 11	[Shaded]																																									
Energy and its Transformations:																																										
November/Week 12 - December/Week 14	[Shaded]																																									
Earth and its Cycles:																																										
December/Week 15 - December/Week 17	[Shaded]																																									
Acids and Bases:																																										
January/Week 18 - January/Week 21	[Shaded]																																									
Global Warming:																																										
February/Week 22 - March/Week 27	[Shaded]																																									
Environmental Case Studies:																																										
March/Week 28 - April/Week 30	[Shaded]																																									
Electricity Basics:																																										
April/Week 31 - April/Week 34	[Shaded]																																									
Electricity and the Environment																																										
May/Week 35 - June/Week 39	[Shaded]																																									
Magnetism and Electricity Generation
