

**Title : Honors Chemistry**

**Type : Essential**

	September				October				November				December				January				February				March				April				May				June							
	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42		
September/Week 1 - September/Week 4																																												
<b>Introduction to Chemistry</b>																																												
October/Week 5 - October/Week 6																																												
<b>Metric System and Conversions and Dimensional Analysis</b>																																												
October/Week 7 - November/Week 9																																												
<b>Atomic and Molecular Structure</b>																																												
November/Week 10 - November/Week 12																																												
<b>Chemical Bonds</b>																																												
December/Week 13 - December/Week 15																																												
<b>Stoichiometry</b>																																												
December/Week 16 - January/Week 18																																												
<b>Reaction Rates</b>																																												
January/Week 19 - February/Week 22																																												
<b>Behavior of Gases</b>																																												
February/Week 23 - March/Week 26																																												
<b>Solution Chemistry</b>																																												
March/Week 27 - March/Week 29																																												
<b>Acid/Base Chemistry</b>																																												
April/Week 30 - April/Week 32																																												
<b>Organic and Biochemistry</b>																																												
April/Week 33 - May/Week 36																																												
<b>Chemistry in the News</b>
